Dear Parents,

Your son/daughter is currently enrolled in a weighted social studies course entitled Military History. In order to truly complete the study of warfare and the impact of armed conflict on mankind, a variety of film clips and videos will be viewed in class. A small percentage of these videos are rated R for violent content and language. According to school policy, both the student and the parent must give their consent for the members of the class to view such materials.

Please sign on the space provided below if you have no objections to your student seeing these film clips in the context of this course. If you have any questions, please do not hesitate to contact me via the Social Studies department at NCHS.

Thank you for your cooperation.

Sincerely,

Mike Albinia
